FEATURE HIGHLIGHTS

Wall Design

The exclusive automotive-inspired styling is designed with Aluminum panels to stand out on the water and take fit-and-finish to a whole new level.

MAX Deck

Unlocks up to 38 sqft more functional space at the stern available exclusively on models powered with the Rotax S. Easy access for recreational activities, space to store water toys, coolers and more.

Engine and Hull Options

Available with a twin tube option when powered by a traditional outboard engine 60 -150 HP or a tritoon option with our patented V-Toon technology when powered by a Rotax S outboard engine.

Redesigned Captain's Helm

A new dashboard layout and design dedicates 4 unique sections of the helm to key functions, ensuring that phone charging, radio control, vessel monitoring, and vessel switching are accessible and intuitive.

Switchback Loungers

The flexible furniture design includes Switchback loungers with adjustable backrests to easily convert from rear-facing to forward-facing seats.

Integrated Cupholders and Speakers

Newly designed cupholders and speakers have been integrated into the walls to offer an enhanced onboard experience without sacrificing space.
