FEATURE HIGHLIGHTS

Digital Vessel Control

This digital system is at the heart of our Luxury & Sport models, providing you control of your vessel with a remote key fob and smartphone. Power on and off, dim lights, get diagnostics, and operate your boat at the touch of a button.

Digital Displays

Featuring bright, sunlight-readable Garmin 7" GPSMAP digital displays with sonar support standard on every model, your Manitou is equipped with a digital chartplotter that'll let you navigate new waters and monitor your vessel.

Power Sport Tower

Our watersports tower comes complete with power controls, bimini top, tow pylon, plus optional JL speakers. You can easily raise and lower the tower right from the Garmin digital dashboard.

Sound System

Matching Marine JL speakers to a JL head unit and Amp creates a uniformed stereo system in which all components were designed to work together in harmony.

Signature Package

Upgrade your Manitou LX with the Signature Package, adding a large center in-tube compartment for additional storage under the deck, and LED Lighting accents.

Select Package

All the features you love from the Signature Package plus the addition of sport tower and color matched fiberglass for a bold style and design.
